Install the latest PowerShell for new features and improvements! https://aka.ms/PSWindows

PS D:\IBM project> iex (New-Object Net.WebClient).DownloadString('https://clis.cloud.ibm.com/install/powershell')
Current platform is Win64. Downloading corresponding IBM Cloud CLI...
Download complete. Executing installer...
Install complete. Please restart to make the modification effective.
PS D:\IBM project>
```

The screenshot shows a Windows PowerShell window titled "IBM project". The terminal displays the execution of a PowerShell command to install the IBM Cloud CLI. The command is `iex (New-Object Net.WebClient).DownloadString('https://clis.cloud.ibm.com/install/powershell')`. The output shows the current platform is Win64, the CLI is downloaded, the installer is executed, and the installation is complete. A message at the bottom of the terminal window says "Install complete. Please restart to make the modification effective." The Windows taskbar at the bottom shows the date and time as 05:24 PM on 21-10-2022.
