## Deploy in Kubernetes Cluster

The screenshot displays the 'mycluster-free' Kubernetes dashboard. The left sidebar shows navigation options: Overview, Worker nodes (selected), Worker pools, and DevOps (with a 'New' button). The main content area shows the 'Worker nodes' list. At the top, a status bar indicates 'Preparing master, workers...' with a green progress indicator and a red 'Expires in 30 days' warning. Below this, a table lists the worker nodes. One node is shown with the ID '000000c9', status 'Deployed', worker pool 'default', zone 'Milan 01', private IP '10.144.213.108', public IP '169.51.206.6', and version '1.24.7\_1543'. The table has columns for Name, Status, Worker pool, Zone, Private IP, Public IP, and Version. At the bottom of the table, it shows 'Items per page: 25' and '1-1 of 1 item'. The Windows taskbar at the bottom shows the time as 10:20 AM on 11-11-2022.

Name	Status	Worker pool	Zone	Private IP	Public IP	Version
000000c9	Deployed	default	Milan 01	10.144.213.108	169.51.206.6	1.24.7_1543
